**“Green” Your Home and Garden with Eco-Smart Products**  
*A Step Ahead, These Earth-Friendly Companies Manufacture Cutting Edge “Green” Products  
Giving You a Safe, Reliable, Eco-Smart Solution for Your Home and Garden*

You know it’s time to green your home. It’s been at the top of your to-do list for months, maybe years. You have purchased the compulsory compact fluorescent and bio-degradable laundry detergent—is that enough? Now truly greening your home and garden has never been easier with the wellspring of earth-friendly companies that bring us safe and reliable products for all aspects of our home life. From Eco-heater’s electricity-cost reducing wall units, to Full Spectrum Solutions’ low impact, high definition lighting, Sunlawn’s easy to use push reel mowers and trimmers, GET Microsolutions’ non-toxic lawn and garden care, and Clean Air Gardening’s eco-savvy garden gadgets comes healthy, user-friendly solutions that bring the power of green into your home and out to your garden.

For a safe, non-toxic and eco-smart lifestyle that reduces energy consumption, improves air quality, and eliminates chemical run-off from your garden, follow these steps to create a responsibly green home.

**Reduce your heating bill with the innovative ECO-heater**

Based in Alexandria, VA., ECO-heater is one of the most economical room heaters on the market today. The ECO-heater offers the ideal heating solution for the home or office, using less than 27% of the electricity that other room heaters consume. An ECO-heater uses only 400 watts to operate, the equivalent power consumed by four incandescent light bulbs. Wall-mounted, low profile design comes in a 23¼” by 23¼” panel positioned approximately ¾ inches away from the wall. Rigorously tested by the Underwriters Laboratory (UL) and certified by International Safety Standards (ISS), the ECO-heater is designed to provide years of maintenance-free service and is backed with a full two-year manufacturer’s warranty.

**Reduce energy bill, improve vision and mood with Full Spectrum Solutions, Inc.**

Full Spectrum Solutions, Inc. is the leading innovator in the energy-efficient, healthy lighting industry with a full line of all-season, all-condition lighting solutions including task lamps, light therapy products, replacement bulbs and commercial fixtures. The Berkeley Lamp II, the only lamp developed by science, brings task and ambient lighting together under one shade reducing energy consumption by up to 50%. BlueMax™ HD desk lamps, floor lamps, and dawn simulators bring the power of light therapy together with style and convenience. Everlast® fixtures have proven to reduce energy costs by up to 60% with an unmatched life span of up to 100,000 maintenance-free hours.

**Reduce Noise and Air Pollution while maintaining green lawns with Sunlawn®**

Sunlawn LMM-40 push reel lawn mower is Sunlawn’s lightest, quietest, easiest to maneuver mower, offering the best mowing performance with the least effort. Featuring the original five-blade, flame-hardened, non-contact cutting system, grass is cut at optimal height turning grass clippings into mulch on contact. Sunlawn was founded in Fort Collins, Colo. in 1997 by inventor Terry Jarvis out of an interest in hand mowers and quieter neighborhoods, Sunlawn has grown to be America’s leader in human-powered, environmentally-friendly lawn mowers that make noise pollution, air pollution and costly fuel consumption a thing of the past.

### **Eliminate toxic lawn and garden maintenance with Get Microsolutions**

Founded in 2005, Colorado-based GETMicroSolutions produces environmentally-friendly and effective home and pet care products that are non-toxic and safe for use in homes with children and animals. Co-founded by Scott Dyer, former executive for a pesticide company and Justin Eisenach, former CEO of a national food company, the company's microbial products include GET Growing™, Get Green™, Pet Peeeve™, Guard Dog™, UR-IN Trouble™, Stall Buster™ and Salt Buster™. Unlike chemical fertilizers GETMicroSolutions's products work with minimal carbon footprint or harsh chemicals and completely eliminate the risk of toxic run-off that harms water supplies and wildlife.

### **Bring style and convenience to your "green" garden with Clean Air Gardening**

Founded in 1998, Austin-based Clean Air Gardening has brought style and convenience to some of gardening's most popular and innovative gadgets for the "green" thumb in all of us. Featuring the Tumbleweed Compost Tumbler with a lid on both ends, the plastic-drum Woodgrain Rain Barrel designed to look like an old fashioned oak barrel, and the Hand Powered Portable Washing Machine fully assembled with no mechanical parts. With a full line of eco-savvy gardening tools, and new and newly improved devices, Clean Air Gardening brings a fresh take on innovative, energy-efficient, and stylish eco-friendly alternatives.
