

Product Information

The portable washing machine requires no electricity, which saves money in energy bills. It is also portable, which enables you to use in places that don't have electricity.

Made of plastic with no mechanical parts, the hand powered washing machine comes assembled. Just attach the handle and go! It can last a lifetime and requires no maintenance.

Choose a stylish rain barrel designed to look like an old fashioned oak barrel, and add a bit of class to your lawn while you capture rain water.

Capacity: 50.44 US Gallons

8 year UV package for protection from sunlight
